Hand Held Ignitor

Model: ACL 100

The **ACL 100 Hand Held Ignitor** is a cost effective, safe and reliable means of igniting all forms of line heaters, burners, etc. The unit is available in 3 and 4 foot lengths. The heavy duty piezo ignitor allows for instant start up with the push of a button. Ideal for field operators and mechanics as it eliminates the need for the unsafe 'rag on stick' method of ignition.

Features

Available in 3 and 4 foot lengths

A convenient trigger ignitor provides instant start up

The swirl combustion resists flame blow out and utilizes the unit's efficiency

Streamlined design with no exposed wiring

The tip remains cool for ease in handling and storage

Has an adjustable flame control which provides a variance in uses

Has trigger locking capability for increased safety

Connects to a standard 465g propane bottle
